

**HYPO ALPE-ADRIA (JERSEY) LIMITED**  
**INTERIM REPORT AND UNAUDITED FINANCIAL STATEMENTS**  
**FOR THE PERIOD ENDED 30TH JUNE 2015**

## **HYPO ALPE-ADRIA (JERSEY) LIMITED**

---

### **REPORT OF THE DIRECTORS**

The Directors present their interim report and the unaudited financial statements of Hypo Alpe-Adria (Jersey) Limited (the "Company") for the period 1st January 2015 to 30th June 2015.

#### **INCORPORATION**

The Company was incorporated in Jersey, Channel Islands on 26th June 2001, as a public company, under the Companies (Jersey) Law 1991.

#### **ACTIVITIES**

The principal activity of the Company was the issue of Non-cumulative Non-voting Preferred Securities (the "Preferred Securities"), the proceeds from which were used to grant HETA Asset Resolution AG ("HETA") a loan facility of €75,000,000 (the "Subordinated Loan", or "Loan"). HETA was formerly known as Hypo Alpe-Adria Bank International AG (or "HAA"), but changed its name to HETA Asset Resolution AG on 3rd November 2014, as referred to below. The Company's rights under the Loan Agreement were guaranteed by HETA under the terms of a Support Agreement (the Loan Agreement and the Support Agreement together comprising the "Issuer Assets"). The commercial effect of the Support Agreement is to give holders of the Preferred Securities rights that would be equivalent to their rights if the Preferred Securities had been issued by HETA itself. As referred to below, the Loan was cancelled on 27th April 2012 for €nil consideration, thereby leaving the Support Agreement as the sole remaining Issuer Asset. The Company's immediate and ultimate holding company is HETA.

As set out in the Offering Circular dated 10th July 2001, the Preferred Securities are only intended for highly sophisticated and knowledgeable investors who are capable of understanding and evaluating the risks involved in investing in them. The Preferred Securities are listed on the Frankfurt Stock Exchange.

#### **BACKGROUND TO HETA**

HETA is wholly owned by the Republic of Austria, which acquired 100% of the equity shares in HETA on 30th December 2009 as a result of the effect of the economic crisis on HETA at that time. The Commission of the European Union (the "Commission") approved the nationalisation of HETA subject to a series of restrictions and conditions to be met under an approved restructuring plan.

On 3rd September 2013, the European Commission (the "Commission") delivered a final ruling on the state aid investigation into HAA, which began in May 2009. The basis for the ruling was the final bank restructuring plan submitted at the end of June 2013. In accordance with this restructuring plan, on 18th March 2014, following a request by the Federal Minister of Finance, the Austrian government ruled in favour of the implementation of the conversion of HAA into a deregulated wind-down company under private law without any general state guarantee.

It was announced on 30th October 2014 that HAA's licence to conduct banking activities pursuant to the Austrian Banking Law had been terminated and that HAA will continue its operations as a wind-down entity. The preconditions for the deregulation of HAA were that it no longer undertakes any deposit transactions and no longer holds any qualified participations in credit institutions or financial securities firms. These requirements were fulfilled as a result of the restructuring. HAA changed its name to HETA Asset Resolution AG ("HETA") on 3rd November 2014.

In accordance with the notices issued to the holders of the Preferred Securities in March 2010, March 2011, March 2012, March 2013 and April 2014, HETA had an accumulated balance sheet loss as at the financial year ends 2009, 2010, 2011, 2012, 2013 and 2014, respectively. Consequently, due to insufficient distributable funds, the dividend payments on the Preferred Securities scheduled for: 13th July 2010, 2011, 2012, 2013, 2014 and 2015 respectively; 13th October 2010, 2011, 2012, 2013, 2014 and 2015, respectively; 13th January 2011, 2012, 2013, 2014 and 2015, respectively; and 13th April 2011, 2012, 2013, 2014 and 2015, respectively were not made.

HETA published its results for 2014 on 17th June 2015. HETA's individual financial statements for 2014 showed a loss of EUR 7.9 billion.

## **HYPO ALPE-ADRIA (JERSEY) LIMITED**

---

### **REPORT OF THE DIRECTORS - (CONTINUED)**

#### **BACKGROUND TO HETA - (CONTINUED)**

On 1st March 2015, the Austrian Financial Market Authority ("FMA"), in its capacity as the Austrian resolution authority, issued an administrative decision initiating the resolution of HETA in accordance with the Bundesgesetz über die Sanierung und Abwicklung von Banken ("Federal Act on the Recovery and Resolution of Banks" or "BaSAG") in accordance with the new European resolution regime for banks. The FMA has issued a decree imposing a temporary moratorium on the liabilities of HETA until 31st May 2016 against its creditors in accordance with BaSAG.

Immediately after the FMA's announcement, HETA published its own announcement detailing the background to the FMA's announcement. HETA stated that it was performing an asset quality review ("AQR") with the aim to re-evaluate its assets in consideration of the aim to wind-down the assets of HETA in a proper, best and quickest-possible manner. HETA stated that the initial results from the AQR became available during the evening of 27th February 2015. These initial results indicated a capital shortfall in the range between EUR 4.0 billion and EUR 7.6 billion. Although HETA was, at that time, still able to repay its debts and meet its liabilities when due, HETA's management board assessed that objective and specific indications within the meaning of art. 51 para. 1 of the BaSAG existed, which indicated that HETA would not be able to repay its debts and meet its liabilities when due in the near future.

HETA immediately reported these developments to its supervisory board and also informed its sole shareholder, the Republic of Austria, about such capital shortfall and inquired whether the Republic of Austria, in light of such new information and the effectiveness of the BaSAG, would be prepared to compensate the future liquidity shortfalls in 2016 and 2017 and the capital shortfall indicated by the AQR by undertaking appropriate measures.

On 1st March 2015, the Austrian Minister of Finance notified the FMA that no further measures in accordance with the Bundesgesetz über Maßnahmen zur Sicherung der Stabilität des Finanzmarktes ("Federal Act on Financial Market Stability" or "FinStaG") will be taken (i.e. HETA's future liquidity shortfalls in 2016 and 2017 and the capital shortfall indicated by the AQR will not be funded by the Republic of Austria). The notification was also brought to HETA's attention. On 1st March 2015, the FMA issued the decree on resolution measures with respect to HETA referred to above.

#### **NON-GOING CONCERN**

Under the terms of the Support Agreement between the Company and HETA, HETA has agreed to maintain the Company as a subsidiary for so long as any Preferred Securities shall remain in issue and has undertaken that, so long as any of the Preferred Securities are outstanding, unless HETA is itself in liquidation, HETA will not permit, or take any action to cause, the liquidation, dissolution or winding-up of the Issuer. Consequently, the Directors currently expect HETA to continue to cover the Company's operational expenses for the foreseeable future. In addition, under the terms and conditions of the Preferred Securities, any amount payable under such Preferred Securities would only arise concurrently with an equal and opposite amount receivable under the terms of the Issuer Assets.

However, the Company is no longer considered to be a going concern due to the following facts already outlined under "Background to HETA": the fact that the Company is now a part of the Asset Resolution Wind Down Unit; the fact that the Republic of Austria has declared that it will not fund HETA's future liquidity shortfalls in 2016 and 2017; HETA's projected capital shortfall indicated by the AQR; and, the action taken by the FMA. Accordingly, the Directors have adopted the non-going concern basis in preparing these financial statements.

The Directors have been informed that the amount of net losses currently allocated to the Issuer Assets held by the Company significantly exceeds the principal amount of such Issuer Assets. Due to the further losses that are likely to be incurred as a result of the AQR, as described above, a repayment value of zero should therefore be expected upon the eventual wind-down of HETA. Consequently, the Directors currently expect that the redemption value of the Preferred Securities issued is also likely to be zero.

## **HYPO ALPE-ADRIA (JERSEY) LIMITED**

---

### **REPORT OF THE DIRECTORS - (CONTINUED)**

#### **NON-GOING CONCERN - (CONTINUED)**

Adoption of the non-going concern basis in preparing these financial statements has resulted in the following mis-match in accounting treatment under IFRS. The Issuer Assets are carried at an estimated recoverable amount of nil in the statement of financial position, whereas the Preferred Securities continue to be carried at the estimated fair value as at 30th June 2015 as indicated by the quoted market price on the Frankfurt Stock Exchange as at that date. This mis-match in accounting treatment has resulted in the statement of financial position showing the Company as being in a net liability position. However, as previously stated, the Directors currently expect that the redemption value of the Preferred Securities issued is also likely to be zero.

Adoption of the non-going concern basis in preparing these financial statements has also resulted in the Issuer Assets/Preferred Securities being re-classified from non-current to current assets/liabilities respectively.

#### **CORPORATE GOVERNANCE**

The Company is not legally subject to any corporate governance code. However, the Directors have internal controls and reviews in place. Due to the nature of the principal activity for which the Company has been established and the limited risk within the Company these internal controls are limited, but are deemed to be appropriate for the Company. Due to the nature of the principal activity, there are no management or supervisory bodies other than the Board of Directors, as listed below.

#### **RESULTS AND DIVIDENDS**

The total comprehensive income for the period amounted to €310,598 (2014: €nil).

The Directors do not recommend the payment of a dividend for the period (2014: €nil).

#### **DIRECTORS**

The Directors who held office throughout the period and up to the date of approval of the financial statements were:

H.C. Grant

G.P. Essex-Cater (resigned on 12th June 2015)

L.V. Pinnington (resigned on 12th June 2015)

M.H. Russling

S.J. Hopkins

J.N. Pendergast (appointed on 12th June 2015)

#### **REGISTERED OFFICE**

13 Castle Street, St Helier, Jersey, Channel Islands, JE4 5UT

#### **SECRETARY**

The Company Secretary is Sanne Secretaries Limited.

#### **BY ORDER OF THE BOARD**

Authorised Signatory  
Sanne Secretaries Limited  
Secretary

Date: 28/08/2015

## **HYPO ALPE-ADRIA (JERSEY) LIMITED**

### **STATEMENT OF DIRECTORS' RESPONSIBILITIES**

The Directors are responsible for preparing the financial statements in accordance with applicable law and regulations.

Jersey Company law requires the Directors to prepare financial statements for each financial period. Under that law the Directors have elected to prepare the financial statements in accordance with International Financial Reporting Standards (IFRSs) as issued by the International Accounting Standards Board. The financial statements are required by law to be properly prepared in accordance with the Companies (Jersey) Law 1991.

International Accounting Standard 1 requires that financial statements present fairly for each financial period the Company's financial position, financial performance and cash flows. This requires the fair representation of the effects of transactions, other events and conditions in accordance with the definitions and recognition criteria for assets, liabilities, income and expenses set out in the International Accounting Standards Board's 'Framework for the preparation and presentation of financial statements'. In virtually all circumstances, a fair presentation will be achieved by compliance with all applicable IFRSs. However, the Directors are also required to:

- \* properly select and apply accounting policies;
- \* present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- \* make judgements and estimates that are reasonable and prudent;
- \* provide additional disclosures when compliance with the specific requirements in IFRSs are insufficient to enable users to understand the impact of particular transactions, other events and conditions on the entity's financial position and financial performance; and
- \* make an assessment of the Company's ability to continue as a going concern unless it is inappropriate to presume that the Company will continue in business. As explained in the Report of the Directors and note 2 to the financial statements, the Directors do not believe it is appropriate to prepare these financial statements on a going concern basis.

The Directors are also responsible for keeping proper accounting records that disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies (Jersey) Law 1991 and International Financial Reporting Standards. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

### **STATEMENT OF PERSONS RESPONSIBLE WITHIN THE ISSUER**

With regard to Regulation 2004/109/EC of the European Union (the "EU Transparency Directive"), the Directors of the Company whose names appear on page 3 confirm to the best of their knowledge that the unaudited financial statements for the period ended 30th June 2015 give a true and fair view of the assets, liabilities, financial position and profit or loss of the Company as required by the applicable accounting standards. The Report of the Directors gives a fair review of the development of the Company's business, financial position and the important events that have occurred during the financial period and their impact on the financial statements. The principal risks and uncertainties faced by the Company are disclosed in note 11 of these financial statements.

Signed on behalf of the Board of Directors

Director:

Date:

28 August 2015

## **NOTES TO THE FINANCIAL STATEMENTS**

### **FOR THE PERIOD 1ST JANUARY 2015 TO 30TH JUNE 2015**

#### **1. GENERAL INFORMATION**

Hypo Alpe-Adria (Jersey) Limited (the "Company") was incorporated in Jersey, Channel Islands on 26th June 2001, as a public company, under the Companies (Jersey) Law 1991. The principal activity of the Company was the issue of Non-cumulative Non-voting Preferred Securities (the "Preferred Securities"). The proceeds from the Preferred Securities were used to grant HETA Asset Resolution AG ("HETA") a loan facility of €75,000,000 (the "Subordinated Loan", or "Loan"). HETA was formerly known as Hypo Alpe-Adria Bank International AG (or "HAA"), but changed its name to HETA Asset Resolution AG on 3rd November 2014.

The Company's rights under the Loan Agreement were guaranteed by HETA under the terms of a Support Agreement. The Loan Agreement and Support Agreement were entered into concurrently and in contemplation of each other. Consequently, these agreements were considered together to comprise the "Issuer Assets". The commercial effect of the Support Agreement is to give holders of the Preferred Securities rights that would be equivalent to their rights if the Preferred Securities had been issued by HETA itself. The Loan was cancelled on 27th April 2012 for €nil consideration, thereby leaving the Support Agreement as the sole remaining Issuer Asset, hereafter referred to as the "Issuer Assets". The Preferred Securities are listed on the Frankfurt Stock Exchange.

#### **2. ACCOUNTING POLICIES**

The principal accounting policies adopted in the preparation of these financial statements are set out below. These accounting policies have been consistently applied to all the periods presented unless otherwise stated.

##### **Basis of accounting**

These financial statements, which give a true and fair view, have been prepared on the historical cost basis, as modified by the revaluation of the Issuer Assets and the Preferred Securities, in accordance with International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and interpretations issued by the International Financial Reporting Interpretations Committee.

##### **Non-going concern**

Under the terms of the Support Agreement between the Company and HETA, HETA has agreed to maintain the Company as a subsidiary for so long as any Preferred Securities shall remain in issue and has undertaken that, so long as any of the Preferred Securities are outstanding, unless HETA is itself in liquidation, HETA will not permit, or take any action to cause, the liquidation, dissolution or winding-up of the Issuer. Consequently, the Directors currently expect HETA to continue to cover the Company's operational expenses. In addition, under the terms and conditions of the Preferred Securities, any amount payable under such Preferred Securities would only arise concurrently with an equal and opposite amount receivable under the terms of the Issuer Assets.

However, the Company is no longer considered to be a going concern due to the following facts already outlined under "Background to HETA" on page 1: the fact that the Company is now a part of the Asset Resolution Wind Down Unit; the fact that the Republic of Austria has declared that it will not fund HETA's future liquidity shortfalls in 2016 and 2017; HETA's projected capital shortfall indicated by the AQR; and, the action taken by the FMA. Accordingly, the Directors have adopted the non-going concern basis in preparing these financial statements.

The Directors have been informed that the amount of net losses currently allocated to the Issuer Assets held by the Company significantly exceeds the principal amount of such Issuer Assets and therefore a repayment value of zero should be expected. Consequently the Directors currently expect that the redemption value of the Preferred Securities issued is also likely to be zero.

**NOTES TO THE FINANCIAL STATEMENTS - (CONTINUED)**

**FOR THE PERIOD 1ST JANUARY 2015 TO 30TH JUNE 2015**

**2. ACCOUNTING POLICIES - (CONTINUED)**

**New Accounting Standards, amendments to existing Accounting Standards and/or interpretations of existing Accounting Standards (separately or together, "New Accounting Requirements") adopted during the current period**

The Directors have assessed the impact, or potential impact, of all New Accounting Requirements. In the opinion of the Directors, there are no mandatory New Accounting Requirements applicable in the current period that are relevant and/or material to the Company. Consequently, no such mandatory New Accounting Requirements are listed. The Company has not early adopted any New Accounting Requirements that are not mandatory.

**Non-mandatory New Accounting Requirements not yet adopted**

In the Directors' opinion, there are no non-mandatory New Accounting Requirements that are either permitted to be adopted, or would have a material effect on the reported performance, financial position, or disclosures of the Company except for IFRS 9, which was adopted by the company in 2012. Consequently, no such non-mandatory New Accounting Requirements have either been adopted, or listed.

**Use of estimates, judgements and assumptions**

The preparation of financial statements in accordance with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expense during the period. Actual results could differ from those estimates. Details of such estimates are provided in note 11 to the financial statements.

**Financial assets at fair value through profit or loss**

The Issuer Assets are perpetual financial instruments, redeemable at the option of HETA. The contractual terms of the Issuer Assets do not give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, as described under paragraph 4.1.3 of IFRS 9. Consequently, the Issuer Assets are classified as a financial asset at fair value through profit or loss ("FVTPL"). Upon initial recognition, the Issuer Assets were measured at fair value excluding transaction costs that were directly attributable to the acquisition of such assets. Subsequently, they were measured at fair value with changes thereof being recognised directly in the statement of comprehensive income. Due to adoption of the non-going concern basis as referred to above, the Issuer Assets are now measured at their recoverable amount, which is estimated to be nil and has also resulted in the Issuer Assets being re-classified from non-current to current assets.

Financial assets at FVTPL are derecognised when the rights to receive cash flows have expired or the Company has transferred substantially all risks and rewards of ownership.

**Impairment**

As required by IFRS 9, all financial assets, except those carried at fair value through profit or loss, are subject to review for impairment at each reporting date. However, the Company's only material financial assets (the Issuer Assets) are classified as at FVTPL and are therefore not subject to review for impairment.

**NOTES TO THE FINANCIAL STATEMENTS - (CONTINUED)**

**FOR THE PERIOD 1ST JANUARY 2015 TO 30TH JUNE 2015**

**2. ACCOUNTING POLICIES - (CONTINUED)**

**Preferred Securities**

Preferred Securities were designated at FVTPL, as permitted under IFRS 9, in order to eliminate or reduce the accounting mismatch that would otherwise occur in the Company's statement of financial position and statement of comprehensive income if the Issuer Assets were to be measured at FVTPL whilst the Preferred Securities would otherwise be measured at amortised cost. Consequently, the Preferred Securities are initially and subsequently measured at FVTPL. The Directors have considered the characteristics of the Preferred Securities, and the requirements of "Financial Instruments: Presentation" ("IAS 32"), and consider that the most appropriate classification of these securities is debt. Adoption of the non-going concern basis in preparing these financial statements has resulted in the Preferred Securities being re-classified from non-current to current liabilities.

Financial liabilities at FVTPL are derecognised when the company has transferred substantially all of its financial obligations relating thereto.

**Fair value estimation**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between willing market participants at the measurement date. The best evidence of the fair value of a financial instrument at initial recognition is the transaction price (i.e. the fair value of the consideration given or received). The fair value of financial instruments traded in active markets is based on quoted market prices at the reporting date.

The Preferred Securities issued by the Company are listed on a recognised stock exchange. In the Directors' opinion, although only limited liquidity may exist for these securities at certain times, the market for the Preferred Securities should be considered to be an active market. Accordingly, in prior years, the Directors considered that the best available estimate of the fair value of the Preferred Securities was provided by the last quoted market price on or before the financial reporting date, being: 0.15% and 1.00% as at 30th June 2015 and 31st December 2014 respectively.

As noted in the Report of the Directors, the Directors have been informed that the amount of net losses currently allocated to the Issuer Assets held by the Company significantly exceeds the principal amount of such Issuer Assets. Due to the further losses that are likely to be incurred as a result of the AQR, as described in the Report of the Directors, a repayment value of zero should therefore be expected upon the eventual wind-down of HETA and the Directors currently expect that the redemption value of the Preferred Securities issued is also likely to be zero. However, this information was not available to the Directors as at 30th June 2015. Consequently, the Directors have continued to use the measurement basis described above to estimate the fair value of the Preferred Securities as at 30th June 2015, consistent with prior periods.

The Directors note that the Issuer Assets are neither quoted nor actively traded. The Company's liabilities under the Preferred Securities are at all times matched by its Issuer Assets by an equal and opposite amount. Consequently, in the Directors' opinion, the estimated fair value of the Issuer Assets was previously equal and opposite to the estimated fair value of the Preferred Securities. However, due to adoption of the non-going concern basis as referred to above, the Issuer Assets are now measured at their recoverable amount, which is estimated to be nil as at 30th June 2015.

**NOTES TO THE FINANCIAL STATEMENTS - (CONTINUED)**

**FOR THE PERIOD 1ST JANUARY 2015 TO 30TH JUNE 2015**

**2. ACCOUNTING POLICIES - (CONTINUED)**

IFRS 13 "Fair Value Measurement" ("IFRS 13") defines a fair value hierarchy that prioritises the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under IFRS 13 are as follows:

Level 1 – Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities at the valuation date;

Level 2 – Inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly (as prices) or indirectly (derived from prices), including inputs from markets that are not considered to be active;

Level 3 – Inputs that are not based upon observable market data.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The estimated fair values and fair value hierarchy of the Issuer Assets and the Preferred Securities are disclosed in note 11.

The level of reliance that can be placed upon estimated fair values is limited and the fair values disclosed may, or may not, be reasonable estimates of the prices at which a trade could have taken place at the reporting date. Due to the limited liquidity of the market in the Preferred Securities, the actual amount that could have been realised by a holder of the Preferred Securities could have been significantly different from the prices disclosed above.

**Share capital**

Ordinary shares are not redeemable and are classified as equity. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, from the proceeds.

**Segmental reporting**

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses. The Directors perform regular reviews of the operating results of the Company and make decisions using financial information at the entity level only. Accordingly, the Directors believe that the Company has only one reportable operating segment.

The Directors are responsible for ensuring that the Company carries out business activities in line with the transaction documents. They may delegate some or all of the day to day management of the business, including the decisions to purchase and sell securities, to other parties both internal and external to the Company. The decisions of such parties are reviewed on a regular basis to ensure compliance with the policies and legal responsibilities of the Directors. Therefore the Directors retain full responsibility as to the major allocation decisions of the Company.

## HYPO ALPE-ADRIA (JERSEY) LIMITED

### NOTES TO THE FINANCIAL STATEMENTS - (CONTINUED)

#### FOR THE PERIOD 1ST JANUARY 2015 TO 30TH JUNE 2015

Closing balance as at 30th June/ 31st December	€ -	€ -
	<hr/>	<hr/>

The net proceeds from the issue of the Preferred securities of €75,000,000 were used by the Company to grant a loan facility (the "Loan") to HETA, with HETA also providing a Support Agreement. The Loan Agreement and Support Agreement were entered into concurrently and in contemplation of each other. Consequently, these agreements were considered together to comprise the "Issuer Assets".

The Loan was granted on 13th July 2001 under the terms and conditions, detailed in the Facility Agreement between the Company and HETA. On 27th April 2012, the Loan Agreement was terminated for €nil consideration by mutual consent between the Company and HETA, with the Company's rights under the Issuer Assets subsequently being represented by the Support Agreement only. The Loan bore interest at a fixed rate of 7.375% per annum, payable quarterly in arrears each 13th January, 13th April, 13th July and 13th October. Payment of interest was receivable only if the amount of interest due was available from annual profits of HETA's previous fiscal year (before movement of reserves).

The Support Agreement (formerly the Loan) has no fixed repayment date, however HETA had the option to repay the Loan in full on 13th July 2006 or on any date thereafter, subject to giving the Company 30 days prior notice.

The obligations under the Support Agreement (Issuer Assets) constitute unsecured and subordinated obligations of HETA ranking *pari passu* among themselves and *pari passu* with all other subordinated obligations of HETA. In the event of the dissolution, liquidation or bankruptcy of HETA, the obligations under the Support Agreement may be satisfied only after the non-subordinated claims of creditors have been satisfied, so that in any such event no amounts shall be payable in respect of the Support Agreement until the claims of all unsubordinated creditors of HETA shall have been satisfied in full.

No interest was received under the Support Agreement during the current year and previous year due to insufficient distributable profits arising at HETA. In addition, regardless of the fact that HETA has insufficient distributable funds, HETA is currently not allowed to make any interest payments to the Company pursuant to the Support Agreement due to the moratorium imposed by the Austrian Financial Market Authority (FMA) (in its function as resolution authority) under the Austrian Bank Restructuring and Resolution Act (BaSAG). Consequently, no dividends were paid on the Preferred Securities.

The Directors have been informed that the amount of net losses currently allocated to the Issuer Assets held by the Company exceeds its principal amount and therefore a repayment value of zero should be expected.

	<u>                    </u>	<u>                    </u>
Closing balance as at 30th June/ 31st December	€ 54,811	€ 365,409
	<u>                    </u>	<u>                    </u>

750,000 Series A Non-voting Non-cumulative Preferred Securities (the "Preferred Securities"), each bearing a liquidation preference of €100 per Preferred Security (i.e. an aggregate liquidation preference of €75,000,000), were issued by the Company on 13th July 2001 under the terms of an Offering Circular dated 10th July 2001 (the "OC").

The Preferred Securities bear dividends at a fixed rate of 7.375% per annum, payable quarterly in arrears each 13th January, 13th April, 13th July and 13th October.

A Support Agreement was entered into on 13th July 2001 between the Company and HETA as the Support Provider. Under this Agreement HETA undertakes to provide the Company with financial support, but HETA is not obliged to make any payment to the Company to the extent that such a payment would exceed HETA's distributable funds for the prior fiscal year or to the extent that such a payment would exceed HETA's annual surplus pursuant to HETA's own financial statements as at the reporting date immediately preceding the dividend payment date. The commercial effect of the Support Agreement is to give holders of the Preferred Securities rights that would be equivalent to their rights if the Preferred Securities had been issued by HETA itself.

The Preferred Securities are perpetual and therefore have no specified maturity date. The Preferred Securities are redeemable only at the option of the Company, in whole but not in part, from and including 13th July 2006 and on any interest payment date thereafter, upon giving the holders not less than 30 days notice. The Company may only redeem the Preferred Securities with the prior consent of HETA. Dividends on the Preferred Securities are payable on each Dividend Date at the rate specified in the Statement of Rights of the Preferred Securities as set out in the OC if the conditions specified therein are met.

---

### **NOTES TO THE FINANCIAL STATEMENTS - (CONTINUED)**

#### **FOR THE PERIOD 1ST JANUARY 2015 TO 30TH JUNE 2015**

##### **5. PREFERRED SECURITIES - (CONTINUED)**

The Company's obligation to pay a dividend on the Preferred Securities on any given Dividend Date will at all times be matched by the Company's right to receive an equal and opposite amount from HETA under the terms of the Issuer Assets (see note 3). However, in the event that one or more dividends are not payable, such dividends are non-cumulative (i.e. the right of the holders of the Preferred Securities to receive such dividends lapses) and no interest is payable on such unpaid dividends. In the event of the winding-up of the Company or the dissolution or winding-up of HETA, holders of the Preferred Securities will be entitled to receive for each Preferred Security a liquidation preference of €100 plus any accrued and unpaid dividends. The Preferred Securities are listed on the Frankfurt Stock Exchange.

As no interest was received from the Support Agreement (Issuer Assets) during the current period and prior period, no corresponding dividend payments were made to the holders of the Preferred Securities on the relevant dividend payment dates.

As disclosed in notes 1 and 3, due to the net losses currently allocated to the Issuer Assets held by the Company, the expected redemption value of the Preferred Securities issued is likely to be zero.

##### **6. SHARE CAPITAL**

	<u>30th Jun 15</u>	<u>31st Dec 14</u>
AUTHORISED:		
16,500 Ordinary Shares of €1 each	€ 16,500	€ 16,500
	<u>                    </u>	<u>                    </u>
ISSUED:		
10 Ordinary shares of €1 each	€ 10	€ 10
	<u>                    </u>	<u>                    </u>

The Company has issued 10 ordinary shares of €1 each. These shares entitle holders to voting rights at any general meeting of the Company, to ordinary dividends as may be declared by the Directors from time to time, and to participate in the winding up of the Company.

The Company is not subject to externally imposed capital requirements.

##### **7. TAXATION**

Profits arising in the Company are subject to Jersey Income Tax at the rate of 0% (2014: 0%).

##### **8. ULTIMATE CONTROLLING PARTY**

The Company's immediate and ultimate holding company is HETA, a company incorporated in Austria.

## **HYPO ALPE-ADRIA (JERSEY) LIMITED**

---

### **NOTES TO THE FINANCIAL STATEMENTS - (CONTINUED)**

#### **FOR THE PERIOD 1ST JANUARY 2015 TO 30TH JUNE 2015**

#### **9. EXPENSES**

HETA has agreed to cover the Company's ongoing operational expenses under the terms of the Support Agreement.

#### **10. RELATED PARTIES**

During the period, Sanne Corporate Services Limited ("SCSL") and Sanne Secretaries Limited ("SSL") provided administration and/or secretarial services respectively to the Company at commercial rates. SCSL was a subsidiary of Sanne Fiduciary Services Limited ("SFSL") until 31 July 2015 when SCSL and SFSL merged and SSL is a subsidiary of SFSL. Each of SSL and SFSL is a member of the "Sanne Group" (where the "Sanne Group" means Sanne Group PLC and all of its subsidiaries and affiliates of the same). Each of G.P. Essex-Cater, H.C. Grant, L.V. Pinnington, J.N. Pendergast and S.J Hopkins is a Director and/or employee of SFSL and should be regarded as interested in any transaction with any member of the Sanne Group.

M.H. Russling is an employee and officer of HETA and therefore should be regarded as interested in any transaction with HETA and the subsidiaries and affiliates of the same. Details of transactions with HETA are disclosed in the notes to the financial statements.

#### **11. FINANCIAL RISK MANAGEMENT**

##### **Financial risk factors**

The principal activity of the Company was the issue of Preferred Securities, the proceeds from which were used to grant a Loan to HETA. The strategies used by the Company in achieving its objectives regarding the use of its financial assets and liabilities were set when the Company entered into the transactions. The Company has matched the properties of its financial liabilities to its assets to avoid significant elements of risk generated by credit risk, liquidity risk and market risks such as interest rate risk, currency rate risk and price risk.

##### **Fair values**

The table below presents the fair values of the Company's assets and liabilities.

	<u>2015</u>		<u>2014</u>	
	<b>Principal Amount</b>	<b>Fair value</b>	<b>Principal Amount</b>	<b>Fair value</b>
<b>Financial assets:</b>				
Support Agreement / Issuer Assets	€ 36,540,900	€ -	€ 36,540,900	€ -
	<hr/>	<hr/>	<hr/>	<hr/>
<b>Financial liabilities:</b>

	<hr/>	<hr/>	<hr/>	<hr/>

## HYPO ALPE-ADRIA (JERSEY) LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS - (CONTINUED)

#### FOR THE PERIOD 1ST JANUARY 2015 TO 30TH JUNE 2015

#### 11. FINANCIAL RISK MANAGEMENT - (CONTINUED)

As at 30th June 2015, the last quoted market price on the Frankfurt Stock Exchange for the Preferred Securities was 0.15% (31st December 2014: 1%). In the opinion of the Directors, the fair value of the Support Agreement/Issuer Assets held was previously approximately equal and opposite to the fair value of the Preferred Securities, as the terms and conditions of the Preferred Securities are equal and opposite to those of the Support Agreement/Issuer Assets and the credit risk attached to both the Preferred Securities and the Support Agreement/Issuer Assets are similar, being in each case closely related to that of HETA. In the opinion of the Directors, it was not practicable to estimate with sufficient reliability any difference in fair value between the Support Agreement/Issuer Assets and the Preferred Securities and any such difference in fair value that might exist was not expected to be significant. However, due to adoption of the non-going concern basis, the Issuer Assets are now measured at their recoverable amount, which is estimated to be nil as at 30th June 2015.

##### **Fair value hierarchy**

The Directors previously considered that the market for the Preferred Securities was an active market as defined by IFRS 13. Consequently, the fair value of the Preferred Securities was previously classified within Level 1 of the fair value hierarchy. However, the Directors now consider that the market for the Preferred Securities is no longer an active market as defined by IFRS 13. Consequently, the fair value of the Preferred Securities is now classified within Level 2 of the fair value hierarchy. The fair value of the Issuer Assets was previously derived directly from the quoted price of the Preferred Securities without adjustment. Consequently, the fair value of the Issuer Assets was previously classified within Level 2 of the fair value hierarchy. The recoverable amount of nil for the Issuer Assets has been estimated based primarily upon the public announcements referred to in note 14, which are considered to be observable inputs. Consequently, in the Directors' opinion, the fair value of the Issuer Assets should continue to be classified within Level 2 of the fair value hierarchy.

##### **Market risk**

##### ***Interest rate risk***

The Company finances its operations through the issue of Preferred Securities upon which dividends are payable. Dividend payments under the Preferred Securities are non-cumulative and are equal and opposite to amounts receivable from HETA under the Support Agreement/Issuer Assets. Amounts receivable under the Support Agreement precisely match any amounts payable under the Preferred Securities. Therefore the Directors believe that there is no material interest rate risk to the Company. The interest profile of the Company's financial assets and financial liabilities is as follows:

			<u>2015</u>		<u>2014</u>	
	Interest charging basis	Effective interest rate	Principal amount		Effective interest rate	Principal amount
<b><i>Financial assets:</i></b>						
Issuer Assets	Fixed	0.000%	€ 36,540,900		0.000%	€ 36,540,900
<b><i>Financial liabilities:</i></b>						
Preferred Securities	Fixed	0.000%	€ (36,540,900)		0.000%	€ (36,540,900)

## HYPO ALPE-ADRIA (JERSEY) LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS - (CONTINUED)

#### FOR THE PERIOD 1ST JANUARY 2015 TO 30TH JUNE 2015

#### 11. FINANCIAL RISK MANAGEMENT - (CONTINUED)

##### Market risk - (continued)

###### *Currency rate risk*

As all the Company's assets and liabilities are denominated in Euros the Directors believe that there is no material currency risk to the Company.

###### *Other price risk*

In the opinion of the Directors, there are no foreseeable other price risks that might affect the fair values of the Company's financial instruments.

###### *Sensitivity analysis*

As previously disclosed, the Issuer Assets are now carried at an estimated recoverable amount of nil, whilst the Preferred Securities continue to be carried at their estimated fair value as indicated by the quoted market price on the Frankfurt Stock Exchange. Consequently, any change in the fair value of the Preferred Securities would have a corresponding effect on the Company's statement of financial position. However, as also previously disclosed, the Directors currently expect that the redemption value of the Preferred Securities issued is also likely to be zero. Consequently, in the Directors opinion, there is no material market risk to the Company.

IFRS 7 requires disclosure of "a sensitivity analysis for each type of market risk to which the entity is exposed at the reporting date, showing how profit or loss and equity would have been affected by changes in the relevant risk variable that were reasonably possible at that date." As stated, whilst the financial instruments held by the Company are separately exposed to interest rate risk and market price risk, the Company itself is not exposed to market risk overall. Therefore, in the Directors' opinion, no sensitivity analysis is required to be disclosed. In addition, the estimated recoverable amount and fair value, as applicable, have been derived entirely from observable information.

###### **Credit risk**

Credit risk is the risk of financial loss to the Company if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's principal financial asset is the Support Agreement (Issuer Assets) entered into with HETA, from which all of the Company's income is derived. Credit risk arises principally from this Support Agreement. The maximum exposure to credit risk, expressed as the gross principal amount of the Issuer Assets outstanding rather than the carrying value of such Issuer Assets, without taking into account any collateral held or other credit enhancements is as follows:

	<u>30th Jun 15</u>	<u>31st Dec 14</u>
Issuer Assets	36,540,900	36,540,900
Receivables	10	10
	<u>€ 36,540,910</u>	<u>€ 36,540,910</u>

The Directors believe that there is no net material credit risk to the Company since dividend and principal payments under the Preferred Securities are non-cumulative, and are equal and opposite to amounts receivable from HETA under the Support Agreement (Issuer Assets). In the event that HETA is unable to repay the full principal amount of the remaining Support Agreement (Issuer Assets) balance, such loss would be borne by the holders of the Preferred Securities, not by the Company.

## HYPO ALPE-ADRIA (JERSEY) LIMITED

---

### NOTES TO THE FINANCIAL STATEMENTS - (CONTINUED)

#### FOR THE PERIOD 1ST JANUARY 2015 TO 30TH JUNE 2015

#### 11. FINANCIAL RISK MANAGEMENT - (CONTINUED)

##### Credit risk - (continued)

The carrying value of the Issuer Assets in the Company's statement of financial position is nil. Consequently, the Company has no further exposure to credit losses.

##### Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Distribution payments under the Preferred Securities are non-cumulative, and are equal and opposite to amounts receivable from HETA under the Support Agreement (Issuer Assets).

Due to the nature of the Company's operations, the Directors consider the net liquidity risk faced by the Company to be minimal. The most significant cash outflow consists of the payment of interest on the Preferred Securities. The timing of its cash outflows fall due on the same dates as the cash inflows from the Support Agreement (Issuer Assets). The Company's expenses are paid on its behalf by HETA and therefore the Directors consider its available cash resources to be sufficient.

##### *Maturity of financial assets and liabilities*

The expected maturity profile of the Company's financial assets and liabilities is as follows (at principal amount):

	<u>30th Jun 15</u> Financial Assets	<u>30th Jun 15</u> Financial Liabilities	<u>31st Dec 14</u> Financial Assets	<u>31st Dec 14</u> Financial Liabilities
In less than one year	10	-	10	-
In more than one year	36,540,900	( 36,540,900)	36,540,900	( 36,540,900)
	<u>€ 36,540,910</u>	<u>€ ( 36,540,900)</u>	<u>€ 36,540,910</u>	<u>€ ( 36,540,900)</u>

Although the Company is no longer considered to be a going concern, it might yet take several years to achieve a solvent wind up of HETA. Consequently, it might potentially be several years before the maturity of the Company's financial assets and liabilities. However, it is also reasonably possible that HETA might be liquidated as soon as possible after the end of the temporary moratorium on the liabilities of HETA, which is currently scheduled to expire on 31st May 2016. In such event, it is likely that the Company's financial assets and liabilities would mature upon liquidation of HETA. No interest or dividends are included above due to the current financial position of HETA. Please refer to notes 3 and 5 for details.

**NOTES TO THE FINANCIAL STATEMENTS - (CONTINUED)**

**FOR THE PERIOD 1ST JANUARY 2015 TO 30TH JUNE 2015**

**12. OPERATING SEGMENTS**

*Geographical information*

All the Company's revenues are generated from Austria.

*Non-current assets*

The Company does not have any non-current assets.

*Major investment company*

The Company derived 100% (2014: 100%) of its revenues from a single entity (HETA).

**13. CAPITAL MANAGEMENT**

The Company's original objective, when managing its capital, was to safeguard the Company's ability to continue as a going concern whilst the Company's financial assets and liabilities remained in issue. In order to maintain this, the Company's financial assets and liabilities and the relative underlying terms and conditions were exactly matched. The transactions were designed to enable the Company to pay its liabilities as they fall due only, without realising a return on capital. The level of interest income and interest expense were exactly matched and were established on incorporation of the Company in order that the Company should realise a net result of €nil each period.

Due to the events described in the Report of the Directors, the Company is no longer considered to be a going concern. However, HETA currently continues to have responsibility for meeting the Company's expenses. Consequently, in the Directors' opinion, the Company currently remains solvent. Except for the foregoing, there were no changes in the Company's approach to capital management during the year. The Company is not subject to externally imposed capital requirements.

**14. SUBSEQUENT EVENTS**

In the Directors' opinion, there are no significant events subsequent to the period end that are deemed necessary to be adjusted or disclosed in the financial statements.
